ABOUT US

Suniti Electricals has emerged as a trusted and high-performance manufacturer of electromagnetic components and stator assemblies. With a strong foundation in quality, technical expertise, and customer-centric solutions, the company caters to diverse sectors including automotive, industrial automation, electrical appliances, and emerging electric mobility solutions.

Suniti Electrical's superior electromagnetic solutions that drive innovation, enhance efficiency, and exceed customer expectations in each product we manufacture.

As an IATF 16949 and ISO-certified organization, Suniti Electricals has maintained a steadfast commitment to comply with standards of quality, sustainability, and process excellence. Over the years, it has built a reputation for delivering high-reliability coil and stator solutions that meet the evolving needs of OEMs.

Suniti Electricals has a state-of-the-art manufacturing facility equipped with the latest machinery for coil winding, stator assembly, and precision testing. From small-volume customized coils to high-volume production of stators for BLDC fans or EV applications, the company has developed flexible yet robust systems that allow agility and scale.
